Access and Pricing for AI Scribe

The offer:

Heidi is an AI-powered medical scribe that listens to consultations and generates structured clinical notes, helping clinicians reduce administrative workload and focus more of their attention on patients. The practice offering also includes options for Heidi Evidence, which provides clinical answers within the workflow, supported by citations to trusted clinical sources.

Eligible general practices can access discounted pricing for Heidi Scribe and Practice plans. Current options include:

Heidi Scribe Team Plan
from $850 per user per year
For practices new to Heidi that subscribe before 31 December 2026, compared with the standard $1,320 per person per year. Standing member pricing is $950 per user per year.

Heidi Practice Plan
from $1,090 per user per year
Combines Heidi Scribe with the full Heidi Evidence offering, with introductory pricing for eligible new practices subscribing before 31 December 2026.

Practices can choose one, two or three-year subscriptions, with per-ESU pricing also available.

This is an existing offer available to eligible Pegasus member practices. The intention in bringing this opportunity into Pegasus Advantage is to ensure all member practices are aware of the available opportunities to support your teams and your practice sustainability. Pegasus has no commercial affiliation to Heidi and you must contact Health Accelerator direct for access to the Heidi offer.

Accessing the offer:

Full pricing, eligibility, plan comparisons and sign-up information are available on the Health Accelerator AI Scribes page:
